NS2 Non-slip decorative pattern heat shrinkable tube

Applications

Wide range of applications - tennis rackets, badminton rackets, fishing rods, baseball bats, billiard cue, hockey sticks, industrial hand tools, athletic equipment and various handles. Increased friction and safety on smooth surfaces minimizes slipping.

Characteristics

- Unique surface designed with environment friendly PE material for durable abrasion
- Flannel decorative surface provides excellent sweat absorption
- Ratio 50% (2:1) excellent for covering irregular shapes
- Prevents the girdle loosening up from handle
- Innovative material designed for excellent performance and upgrade product value
- Different colors and OEM patterns are available on request for individual design
- Economical and easy to install, extremely proper in the DIY market
